Download AI Research (<https://nasscom.in/ai-gamechangers/images/AI-in-research.pdf> (<https://nasscom.in/ai-gamechangers/images/AI-in-research.pdf>)) and AI Use Case Deployment (<https://nasscom.in/ai-gamechangers/images/AI-use-case-deployment.pdf> (<https://nasscom.in/ai-gamechangers/images/AI-use-case-deployment.pdf>)) enclosed offline form is for your reference only. However, only the online applications would be considered.

* Required

Contact Details

1. Full Name *

2. Designation *

3. Organization Name *

4. Email ID *

5. Contact Number *

The value must be a number

Application Type

6. Please classify your AI work among the options below. *

AI Research

AI Use-Case Deployment

Entity Details

23. Entity Name *

Please mention the name of the organization that is applying for the awards

24. Brief description about the entity*

Briefly mention the kind of work that you do including the sectors catered with a specific focus in terms of work done in the AI domain.

25. Entity Type *

Enterprise

Government

Startup

Academia

NGO

Other

26. Entity's existence in India – Year of establishment *

The value must be a number

27. Number of employees in India *

28. Entity Website / URL *

29. What is the role of the Entity in use-case deployment *

- Solution Provider
- Solution Procurer
- Both (In-house Solution)

Use Case Specific Details

30. Name of the use case *

Provide a succinct name to your use case that is descriptive of the problem and solution (4-6 words)

31. Industry Vertical Catered *

- Retail & CPG
- BFSI
- Healthcare & Lifesciences
- Agriculture
- Education
- Manufacturing & IndustrialAutomotive
- Technology, Media & Telecommunications
- Energy and NaturalResources
- Transport and Logistics
- Travel, Tourism & Hospitality
-

Other

32. Business Functions Catered *

- Customer Service
 - Marketing & Sales
 - HR
 - Software & Applications
 - Operations
 - Business Intelligence
 - Sovereign Functions of Govt. of India (State-run functions)
 -
- Other

33. Technologies Used *

- AR/VR
 - Graph Technology
 - NLP
 - Computer Vision
 - Cybersecurity
 - Quantum Computing
 - AIOps
 -
- Other

34. Mention the beneficiary of your use case and specify the name. *

Mention who is utilizing the use case, also share the name of the entity if possible. Please specify if the beneficiary name has to be kept confidential.

Problem Identification

35. Describe the problem that you are trying to solve. *

36. Why is the problem selected by you important to be solved? *

Provide a brief to help us understand the gravity of the problem and why it needs to be solved.

37. Describe your solution to the identified problem with a specific focus on how you are leveraging AI. *

Highlight the solution, focusing on role of AI, also focus on why just analytics would not have been sufficient to solve the problem.

Solution Innovation

38. Provide a high-level tech stack view of the solution. *

Describe your solution with a focus on technicalities like infrastructure, platforms, techniques, services, etc.

39. Describe the complexity of the dataset used in terms of volume, data type and data sources. *

Highlight the volume and variety of the dataset

40. Highlight the data related challenges faced while implementing the solution. *

Focus on challenges like data availability, accessibility, security, processing etc.

Impact & Scale

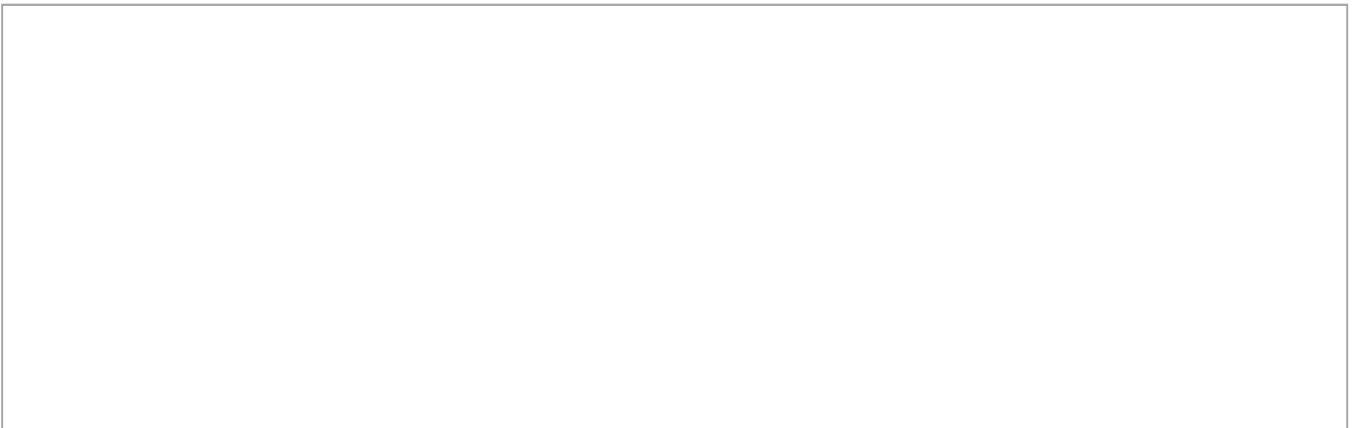

41. Highlight the achieved scale and overall impact of your solution. *

Highlight qualitative impact achieved

42. Highlight the potential scale which can be achieved as per the current scenarios*

Timeline 6 months to 24 months

43. How did the solution impact the key performance metrics ?

- a.** Revenue Optimization
- b.** Operational Efficiency
- c.** Customer Experience
- d.** Any others, please specify*

Quantify the improvement on the above parameters

44. Did the solution address any of the following social impact areas?

Please select the area where the solution has had an impact. This will help in the application's qualification towards these categories.

AI for Accessibility (for individuals with limited abilities)

AI for Sustainability

AI for Next Billion

Operationalizing Responsible AI Principles

Other
