

## MANEESH SHARMA

Country Manager - GitHub India

Maneesh Sharma is the Country Manager for GitHub in India, where he leads the company's growth and operations. With over 22 years of experience under his belt, he is passionate about technology innovations & software products from India. Prior to joining GitHub, he was responsible for driving Adobe's strategy, business operations and partner ecosystem in India. He has also run the platform business at SAP India as the head of products and solutions and was involved with developer communities during his stint with Sun Microsystems. An avid reader, in 2005 Maneesh founded India's first online book library [BookMeABook.com](http://BookMeABook.com) , to keep the passion of reading books alive in people from all walks of life. Maneesh holds an MBA degree from IIM Bangalore and a B.E. in Electronics and Communications from National Institute of Technology, Surat. Maneesh lives in Delhi and in his spare time he enjoys learning to play his Guitar collection & playing retro video games.
