

Amit Khatter
Director, Eastern Software Systems

Amit has close to 25 years of experience in the IT which spans Business Development, Channel Management, Project Implementations and Product Development. His strategic initiatives have been instrumental in expanding the ESS operations across several countries.

Amit's thought leadership has helped in creating simple solution to address complex business problems faced by large enterprises. This has helped in creating innovative solutions for diverse industry vertical as well as helped him in successfully managing more than 400 ERP projects across 15+ countries, including large e-Governance projects. He was previously heading the Product Development and R&D teams at ESS and has played a key role in the development of ebizframe ERP and making it ready for the overseas market. He is still actively involved in providing strategic direction to the Product Development group at ESS.

Amit has been a speaker at various international business events
